PROFILE SUMMARY

Detail-oriented Information Technology graduate with strong fundamentals in Python, SQL, Operating Systems, and Networking, with hands-on experience in building and supporting data-driven applications. Skilled in troubleshooting, debugging, and analyzing system issues, with the ability to understand end-to-end application and infrastructure flow. Seeking an entry-level IT Support role in an automation environment to ensure system reliability, quick issue resolution, and smooth operation of software and hardware resources.

EDUCATION

Bachelor's degree Finolex academy of management and technology	2022 - 2026
12th Abhyankar Kulkarni junior college Percentage: 90.50%	2019 - 2021
10th Saeeda M.S. Naik English medium school Percentage: 81.80%	2006 - 2019

TECHNICAL SKILLS

Python, SQL, Windows OS, Linux Basics, Computer Networks, DBMS, Hardware Troubleshooting, VMware, Excel, Power BI

PROJECTS

Restaurant Recommendation System | Tools: Python, SQL

- Designed and implemented a recommendation system to suggest restaurants based on user preferences and ratings
- Handled data preprocessing, validation, and error handling to ensure accurate system output
- Debugged application and database issues, ensuring smooth interaction between backend logic and stored data
- Improved system reliability by analyzing failures and fixing logic and configuration errors

Skill Gap Analyzer System | Tools: Python, SQL

- Developed a system to compare user skills with job requirements and identify skill gaps
- Implemented backend logic for data processing, matching algorithms, and result generation
- Performed data cleaning, validation, and troubleshooting to maintain accurate analysis
- Gained experience in end-to-end system flow, root cause analysis, and resolving software-level issues

KEY SKILLS

- Data Analysis
- SQL Querying & Reporting
- Python for Data Handling
- Business Insight Generation

- Analytical & Logical Thinking

ADDITIONAL INFORMATION

- Practicing quantitative aptitude and logical reasoning
- Comfortable explaining SQL logic and analysis approach
